### **DETAILED ACTION**

1. This action is responsive to amendment filed 05/19/2006.
2. Claims 1, 4, 5 and 8-10 are allowed.

#### ***Allowable Subject Matter***

3. The following is an examiner's statement of reasons for allowance:

Claims 1 and 4, the prior art does not teach a method for compressing data representing a 3D unit vector, comprising determining X, Y, and Z components of the vector; determining in which octant the vector falls; deriving octant pair data from signs of the X and Y components of the vector; deriving a scaling factor for the vector; scaling the X and Y components with the scaling factor; and deriving compressed data values to represent the vector and the octant of an octant pair in which the vector falls, with the vector being encoded as compressed data values and octant pair data.

Claims 9 and 10, the prior art does not teach decompressing data from compressed data comprising three fields, comprising: identifying one of four octant pairs from octant pair data stored in a first field; extracting first and second data values from second and third fields; determining from the first and second data values the octant of an identified octant pair in which the vector falls; deriving X, Y and Z components from the first and second data values and the octant pair data; and normalizing the X, Y, and Z components to derive a unit vector.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

Art Unit: 2628

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
